Liked having the history and background of each piece of music. Two of the pieces of music are MISSING near the end of the book: America the Beautiful and another one. The size of the music is unnecessarily small for the page size. Those pages were filled up with ads instead! It is a return.

I was very happy with the book, and the author, who I also ordered it from, he sent it promptly and signed it as he said he would. The book is a present for my mother who was looking for American patriotic songs along with their history. This is perfect.
