Customer Reviews

This book goes beyond the theory and shows you how to trade. The approach here is simple and practical. This book is easy to read and covers the essential elements of a sound trading plan. What I like in this book is, it stresses how important self-awareness and risk management is. It explains that there are critical lessons for day traders that we need to learn. Generally, it covers on the thought process of a successful trader and on trading strategies.

very informative! This is the perfect guide for anyone interested in getting started in stock trading. This book is well written, very informative and has what seems to me all the information a person needs to get started with stock trading. This book has been a huge help to me. Highly recommended.

VERY INFORMATIVE!A great tips and very informative regarding day trading especially for beginners like us.The material in this book is concise and to the point.This book is perfect to guide me from the beginning and because it offers graphics, illustrations and diagrams becomes very easy learning.WONDERFUL BOOK!

This book contains everything he talks about and practices day in and day out in his chat room. I will be re-reading this book many times. This book will be good for people who like to invest and make money online; it is indeed a very informative book with a lot of useful knowledge to learn.The best thing is it describes day trading techniques and basic strategies. I read a lot of books about investing and I found it complicated. It is very detailed and very understandable. It has all the information I want to know. Very helpful book. It's a great resource for anyone who is just getting into day trading. It actually covers the area of Trading specifically set for beginners, giving step by step instructions from picking your own platforms, to opening your account and brilliant ideas on the proper trading, giving you the real picture of the trading world.Day Trading is one of the things that

some people make huge of money.

Awesome and informing book! This is a comprehensive guide to Day Trading. The book was written in a very organized manner. The author starts with the basic information on Day Trading like the reason for doing this type of investment and its terminologies used. The book gets exciting as you read because you get to know techniques and mistakes that you do in this kind of business. Really worth recommending!

This book is a really good guide for persons who want to learn the basics of trading, how to set up an investment account, and proven strategies for day trading. Learn the basic tools of day trading as well as an overview of what day trading entails and other important information as well as success stories to get you motivated!

Stock markets are always the best option for investment. Day trading is a good option to invest and earn money. We can say intraday trading is a situation where you invest money and pull it out all in the same day. With this book I understood how to go about trading on a daily basis and teach where to put in efforts to make the right investment choices. I recommend this to those who is just in stock market. It is very informative and helpful. Thanks to the author.

Trading for me is a way of experience before but not now thankfully. I learned so much of this book as a beginner on Day Trading. The tips and guide are simple and very easy to follow and understand. I can see myself doing this kind of business soon. Sharing the great news to my brother and sister as my partner in business.
