Disney Movie Posters: From Steamboat Willie To Inside Out (Disney Editions Deluxe (Film))

Synopsis

Anyone who has ever seen a Disney movie knows that the iconic images are beautifully conveyed via the magnificent posters. The tone of the movie and the full range of emotions we experience in seeing the film are often captured in a single poster. After having seen and experienced a wonderful Disney motion picture, the mere sight of the poster can bring back the feelings of having taken the journey by watching the film. Disney Movie Posters is a tribute to those posters, which tell the story both before and after we see the movie. Disney Movie Posters have been an important part of the motion picture process since Disney began making motion pictures. Not only are they eye-catching pieces of artwork, they are also designed to entice the movie-going audience. From Steamboat Willie, to Frozen and countless movies in between, Disney Movie Posters have been an important part of the films themselves. Disney shorts, animated movies, live action movies and Pixar movies can be remembered and honored by the posters that so efficiently capture the magic of the film.

When I first saw that this title was going to be released I was very excited. Being a fan of both Disney's animated and live-action films I couldn't wait to see many of the posters from over the years. While the book covers all of the major animated films, live action is a different story. Of the 141 pages a little more than 30 are devoted to live-action posters. Most of the live action posters featured are made up from the more recent theatrical releases. The book is basically 80% Animated titles and 20% live-action. If they had entitled the book Disney Animated Posters from Steamboat

Willie to Inside Out then one would get what they expected. Some of the films are even featured twice because of a difference in artwork or style. The book itself is solid and well crafted and the pages are very durable and sturdy. It would make a great coffee table book and a good addition to a Disney book library, While I would still recommend this book, it's not everything the title says it is.

The posters will greatly appeal to Disney fans. It is just too bad that the price may well be beyond the spending money of the intended audience.

Both of my girls loved this book . They are in their twenties ,they each got one for Christmas.

Great Gift for Disney fan
