The Final Trade: The Dominion Trilogy, Book 2

Synopsis

The thrilling sequel to the runaway best seller *The Last Girl*. Zoey is not the woman she once was. She's watched her friends die at the hands of their captors, been hunted, and returned from the brink of death. Now she must find the truth about who she is. In search of the family she never knew, Zoey learns of personal records stored in an Idaho missile silo that may contain the information she and the other women seek. With the help of her group of newfound friends, Zoey travels to the missile facility, but among the records, they uncover information that leads to an insidious and horrific new foe: the Fae Trade, a macabre carnival of slavery and pain. Zoey's journey into the darkest parts of the human psyche brings her perilously close to the ever-thinning line between good and evil, and the final cost in her quest for justice might be her own humanity.

Customer Reviews

Love this trilogy, and can't wait for the third book, which I assume won't be out until March 2017, daw-gone it. I just finished reading the last page in *The Final Trade* -- wow -- it's even better than the first book. I love dystopian stories that seem largely realistic, and *The Dominion Trilogy* has that feel to it -- that what-if-that-really-happened vibe. The story moves along at a fast clip with no sagging middle in either book so far, and definitely nothing cookie-cutter about this story. Hart does a fantastic job of pulling the reader in from the start, and I was rooting for Zoey from Day 1 -- love seeing her grow in her determination and heroism. The cast of supporting characters are drawn just deeply enough to bring the story to life without distracting from the main events, and yet I find myself rooting for all of them, and hoping they all make it right up to the end of the story. If you enjoyed

Hunger Games, Water World and the Divergent series, you will definitely like The Dominion trilogy -- it has whiffs of all those stories, and yet is completely original with no overlapping of story plots, just the underlying major factors -- Zoey is a young adult woman who's forced into an unfair situation that is quickly coming to a terrible end for her, if she doesn't find a way to escape. She managed to break out of the ARC in a big way in the first book, and finds like-minded and resourceful friends that she carries into the second book. And in great story telling style, the troubles grow even larger in Book 2, with Zoey on a mission to end the heinous Fae Trade -- the sex slave trade of the few young-ish women who still exist on Earth.
