Customer Reviews

It's about time someone came up with a simple way to deliver key information to recording artist and producers. I have been in the business for over 20 years and find myself banging my head against the wall trying to explain to artist the importance of knowing key parts of the business. Some things you need to know if you want to make a solid decision about your career. This audio book is a god send. Pop it in on the way to the studio and in 30 minutes you got a handle on some important facts. For the busy artist or producer this audio book is a must, quick, precise and to the point. Great listen. DD
