Customer Reviews

i have this entire set just wish they would change the cover picture to more easily follow the books example technique, lessons or etudes they look so much the same i keep grabbing the wrong book....inside is wonderful...fun examples to learn from....

I love this series of books (except for the duet and solos ones). They are well-paced, thorough, and tuneful. I use them instead of the more traditional (and boring) Rubank books, and I have not noted any deficiencies in my students' technique. Alternatively, they are also good for sight-reading, which is what I use the Tunes for Technique volume for. Highly recommend.
