# Robert Ludlum's The Bourne Objective

## Synopsis

After Bourne is ambushed and nearly killed while in Indonesia, he fakes his death to take on a new identity and mission- to find out who is trying to assassinate him. In the process, Bourne begins to question who he really is and what he would become if he no longer carried the Bourne identity. Across the globe, an American passenger airliner is shot down over Egypt-apparently by an Iranian missile-leaving the world wondering if it was an accident or an act of aggression. A massive global team lead by Soraya Moore is assembled to investigate the attack before the situation escalates. When Bourne's search for his would-be assassin intersects with Soraya's search for the group behind the airplane bombing, Bourne is thrust into a race to prevent a new world war. But it may already be too late. --This text refers to the Paperback edition.

## Book Information

Audible Audio Edition

Listening Length: 14 hours and 25 minutes

Program Type: Audiobook

Version: Unabridged

Publisher: Hachette Audio

Audible.com Release Date: June 1, 2010

#755 in Books > Audible Audiobooks > Fiction & Literature > Action & Adventure #1339

in Books > Mystery, Thriller & Suspense > Thrillers & Suspense > Spies & Politics > Espionage

## Customer Reviews

It would seem those who have picked up and attempted to read the further exploits of Jason Bourne written by Eric Van Lustbader generally fall within two groups...those who seem to enjoy them, and those who compare them way TOO much to the incomparable Robert Ludlum. I admit, I fell into that category myself back when the first Post Ludlum Bourne novel was released (the Bourne Legacy). I had a difficult time separating the writing of the original 3 books with that of the new...that is until I began to see it a bit differently. I decided to judge the book based on not having read Ludlums earlier works, and upon that little epiphany, my enjoyment actually improved exponentially. Many have chimed in on the 4th Lustbader Bourne novel being not quite up to par (at least with his other books) and while I can accept that, the Bourne Objective was an entirely different Bourne

book--especially compared with #4. The storyline was a bit familiar with plots already established by the late, great Robert Ludlum, but I tried to focus on what I liked more than be picky. With that in mind, Bourne #5 became a roller coaster of suspense, and action. Death & mayhem were on virtually every other page, and finally the conspiracy came close to being what our dearly departed author may have come up with...or at least I'd like to THINK so. For those who simply cannot separate Eric Van Lustbaders writing style from Ludlums, well, maybe you ought to just let this one pass, but if you can judge a book as though you had never read him before, I believe you just may enjoy this one--or at least a whole lot more than you will if you don't...I suppose it really depends on the person ultimately. Will Lustbader EVER reach the status of Ludlum? My guess is no--not even close...
